

RECOVERY & WELLNESS PROFESSIONAL SERVICES

Lawrence Farber L.C.S.W.

February 1, 2024

Please be aware that due to the nature of my work and helping clients deal with the varied crisis interventions, often multiple hours may be involved with a given session. In the event that occurs, the client and/or their family will be responsible for the additional time at my rate of \$165 per hour, in 15 minute increments.

In addition, conversations that go over a 5 minute duration will be subject to billable hours in 15 minute increments at the rate of \$41.25 per increment. This has to be asked due to the comprehensive nature of the level of care often required to speak to collateral family members, institutions, treatment centers, attorneys, schools and other collateral professionals.

Lawrence Farber will make every effort to limit the time involved in his billing to the client or family member responsible for payment; however, severe situations often occur that require more intensive involvement.

I, _____, understand and accept this policy.
